autoform

Formed in Sweden.

Autoform is a leading manufacturer and supplier of automotive accessories and industrial components. With production and headquarters in Malung, Sweden, we work globally to support the worlds' leading vehicle manufacturers.

Our range of products includes trunk trays, roof boxes, stowage boxes/parcel shelves and customized thermoplastic parts. We supply a wide range of accessories for the automotive aftermarket. Autoform is also a subcontractor offering unique and customized plastic parts to clients in various industries.

The Autoform idea.

Autoform was founded in 1988 and has since been a successful partner committed to delivering high quality products, customer service and profitability. Our commitment extends to an environmental friendly, proactive and modern production process. The majority of Autoforms' products are developed in cooperation with our network of customers and partners.

Autoform offers a flexible and reliable process that includes all steps from product development, adaptation and design to production and supply.

Our dedication.

Autoform consults technological expertise to create and deliver high quality products made to our customers expectations. We are a reliable partner and a market leading producer of cutting edge products for automotive and industrial applications.

Our products.

Trunk trays
Roof boxes
Stowage boxes and parcel shelves
Subcontractor products

Trunk trays.

Autoform has a wide range of custom-made trunk trays made to fit each individual vehicle. Today, we have approximately 500 different types that are designed in close collaboration with leading car manufacturers. We use custom made equipment, fitted with sensors that are connected to advanced software, to ensure the end products fit perfectly. Our products in this segment are branded with manufacturers' unique logos and patterns or the Calix group brand.

The superior polypropylene.

Our trunk trays are made from 100% recyclable polypropylene, laminated with an anti-slip rubber surface. We use polypropylene in a variety of thickness from 1 to 5 mm. The edges vary between 20 to 300 mm depending on our customers' demands.

Roof boxes.

We design and produce roof boxes made from recyclable ABS. Our extensive experience in producing roof boxes with superior quality has given us a leading position in the business. Evolution of design and engineering is a constantly ongoing process in this segment.

Stowage boxes and parcel shelves.

Our stowage boxes and parcel shelves are generally made of ABS. Autoform provides product development and design in cooperation with leading car manufacturers.

Subcontractor products.

Autoform is a subcontractor, mainly to the automotive industry, but also to a wide range of other industries. We produce plastic parts according to customers' unique requirements.

Parcel shelf for the KIA Soul.

The 370 roof box.

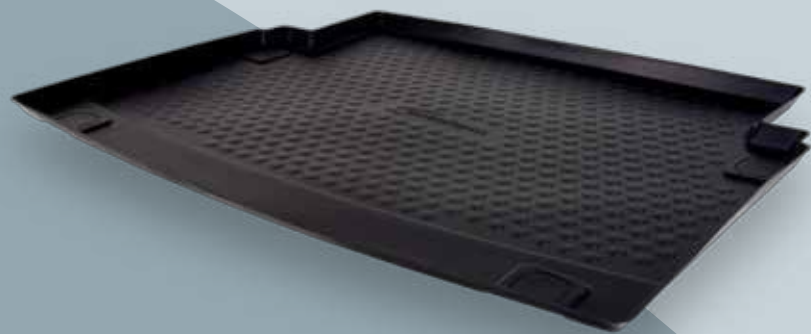

Front cover for the Thermia Atec air/water heat pump.

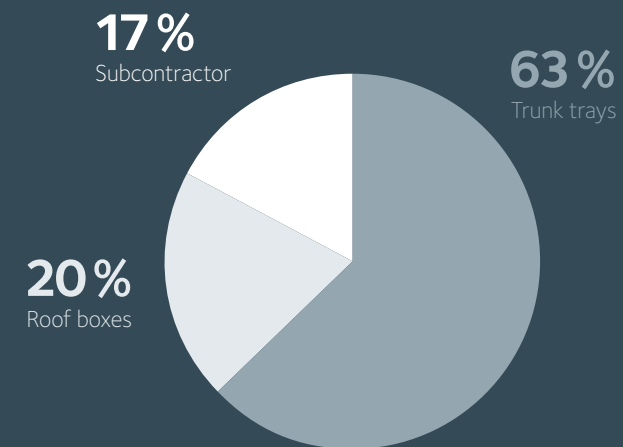

Cutting edge production.

Continuous investments in our production facilities ensure we use modern, proven and flexible machinery and equipment that are managed and controlled through advanced computer systems.

A successful partner.

Join our customers!

At Autoform our strategy has always been to have a professional and close cooperation with the automotive industry. We are convinced that our way of working has led the way to successful partnerships with some of the worlds' leading car manufacturers. We are very proud of being a supplier to many well known manufacturers.

Corporate structure.

Environmental obligations.

The raw materials are 100% recyclable, resulting in a zero waste production process. Our goal is also to use renewable materials as far as possible, in both factories and offices.

100% recyclable raw materials.

Quality commitments.

Autoform is certified in accordance with the requirements prescribed by the global automotive industry. This means the certificates ISO/TS 16949 and ISO 14001. Our certificates are necessary to fulfill the level of quality demanded within the automotive industry. Furthermore, we have the Triple A-certificate which is the highest credit rating in Sweden.
