

EXPANDING **SMALL** CARS.

URBAN LOADER
expanding small cars

INNOVATIVE EXTRA CARGO SPACE FOR SMALL CARS. DESIGNED FOR YOUR EVERYDAY NEEDS AND INTERESTS.

Instead of trading up to a larger vehicle, utilise your small car to the fullest by expanding your cargo space with the URBAN LOADER. The URBAN LOADER is a new, innovative extra cargo space that is great for transporting grocery shopping bags, suitcases, baby carriages and golf bags. Or maybe the occasional tuba, moving box or sombrero. Only the imagination sets limits.

In the compact position, the URBAN LOADER is so slim and stylish that there is no need to remove it from the car. It is easy to install on the car roof, simple to use and to clean and it fits most roof racks and cars on the market.

The URBAN LOADER is the solution for everyone with a car who needs extra cargo space. It does not matter if you drive a small car or a station wagon. The URBAN LOADER provides the solutions to most of your storage problems. Now you can finally fit your shopping bags *and* the baby carrier or suitcase in the car. The URBAN LOADER turns everyday problems into opportunities.

A tribute to your interests.

With an URBAN LOADER on the car roof you can be sure of one thing – it is more than an ordinary roof box. With the URBAN

LOADER on the car roof you can transport everything from sports equipment to large packages. You can use it as a permanent part of your car – in rain and sunshine – all year around.

Everyday luxury for small cars.

There are several advantages with keeping a small car instead of trading it in for a larger vehicle. Low fuel consumption and easy parking together with the considerably lower purchasing and maintenance cost to mention a few. Both the household economy and the environment benefits when utilising

the URBAN LOADER as an extra cargo space.

The URBAN LOADER – with its patented solutions, design and construction – is made in Sweden. It is fully tested, approved and certified and can be used all year around. The URBAN LOADER is a smart, attractive and safe alternative and you will get a product that is suitable for today's urban and car dependent lifestyle. In fact, you will be able to utilise your small car for things that you did not think possible.

You will find more information about the product on www.urbanloader.com

Grow with URBAN LOADER!

The URBAN LOADER is easy to install on the car roof, simple to use and to clean. It will fit for example a baby carrier, two golf bags or two normal sized suitcases. Expanding the box only takes seconds. A smart steel device is used to open and close the URBAN LOADER. You can open the URBAN LOADER from both sides and the material between the hard cover lid and the bottom cover is made of a weather resistant fabric and is sealed with zippers.

The cargo should always be fastened with the straps. The URBAN LOADER fits most roof racks and cars on the market. The URBAN LOADER shows very little effect on fuel consumption both in the raised and the compact position, approximately 6 to 8 percent increase only. On the website www.urbanloader.com you will find more information about installation, product details and where to purchase it.
